

The 5th International Symposium on Terrestrial Environmental Changes in East Eurashia and Adjacent Areas

- The daybreak of Paleoenvironmental dynamics -

(5thNagoya06)

December 5-9, Nagoya, Japan

Venue

“Symposion Hall” , Nagoya University
Address: Furo-cho, Chikusa-ku, Nagoya 464-8601, Japan

Organized by

21st Century COE (SELIS), Nagoya University
21st Century COE (SEA) & KINET, Kanazawa University

Topics

- (1) Long-term environmental changes and Asian Monsoon
Lake Baikal, Lake Hovsgol, Loess Plateau, Lake Qinghai, etc.
- (2) Tectonics, climate and vegetation
- (3) Environmental processes
- (4) Age determination of terrestrial sediments

Organizing Committee

Chair:

Prof. Tesuzo YASUNARI, Nagoya University, Japan

Co-chair:

Prof. Kenji KASHIWAYA, Kanazawa University, Japan

Prof. Zhisheng AN, Institute of Earth Environment, CAS, China

Dr. Tai Sup LEE, Korean Institute of Geoscience and Mineral Resources, KAS, Korea

Dr. Dondovyn TOMURHUU, Institute of Geology & Mineral Resources MAS, Mongolia

Prof. Mikhail I. Kuzmin, Institute of Geochemistry, RAS, Russia

Secretary General:

Prof. Takayoshi KAWAI, Nagoya University

Lake Baikal

Lake Qinghai

Secretary:

Masako SHIRAISHI, Nagoya University
